

# NuvoAir: Proven Reliability

NuvoAir has developed and commercialised the Air Next Spirometer and Air MD Professional App.

Air MD is a mobile application designed to support caregivers in diagnosing and re-assessing patients with respiratory conditions in a simple and intuitive way.

Air Next performs to ATS/ERS standards and uses GLI 2012 reference values.

Coaching and grading are used to obtain reliable and interpretable data according to ATS/ERS grading standards.

All patient testing and data review done on your phone.

With the NuvoAir MD Professional App (Monthly Subscription required):

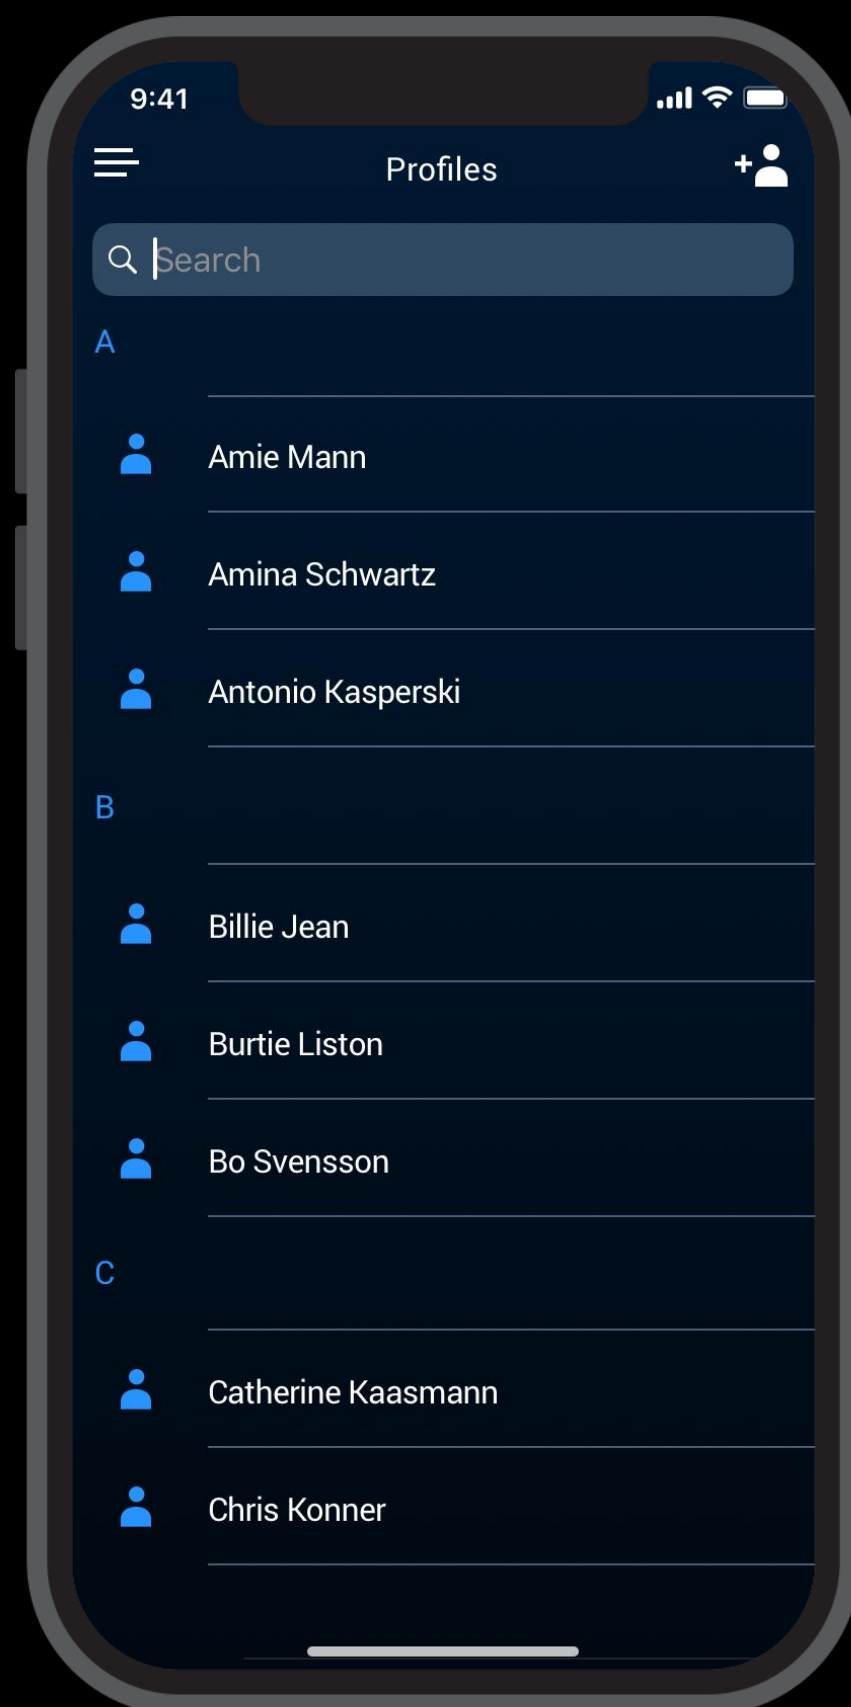

- Unlimited patients testing
- Measures FEV1, FEV1%, FVC, FVC% FEV1/ FVC ratio, PEF.
- Inspiratory Loop
- PDF Reports

# Patient Profile Creation
